

Materials Management (MM)

This case study explains an integrated materials management process in detail. This promotes a thorough understanding of each process step and the underlying SAP functions.

MOTIVATION

In the exercises for Materials Management, a procurement process was tracked with master and transaction data that had already been created.

This case study explains and executes a complete material procurement process from the creation of master data, through purchasing to payment for the delivered goods.

PREREQUISITES

Before you process the case study, you should familiarize yourself with the navigation in the SAP system.

To successfully perform this MM case study, it is not necessary to have completed all MM exercises. However, it is recommended.

NOTES

This case study uses the model company Global Bike, which was developed exclusively for SAP UA Curricula.

Process Overview

Learning objective Understand and execute an integrated procurement process.

Time 170 min

Scenario To process a complete procurement process, you will assume various roles within Global Bike, for example: Purchaser, Warehouse Worker, Accounting Clerk. In general, you will work in the Materials Management (MM) and Financial Accounting (FI) departments.

Employees involved	Joyce Hausman	(Contract Manager)
	Sandeep Das	(Warehouse Supervisor)
	Sergey Petrov	(Warehouse Employee)
	Wilton Saban	(Inventory Supervisor)
	Alberto Conti	(Inventory Assistant)
	Aura Maxwell	(Purchasing Agent)
	Tatiana Karsova	(Goods Receipt Clerk)
	Silvia Cassano	(AP Accountant)
	Shuyuan Chen	(Head of Accounting)

Before you start the procurement process, you must create a new supplier (Mid-West Supply from Lincoln). You then create the new master record for a trading good (chain lock) in the system. After the stock is checked (empty), you initiate the procurement by creating a purchase requisition. You then generate a request for quotation and maintain the quotations for three different vendors (including your new vendor). After evaluating and accepting the bid from Mid-West Supply, you create a purchase order with reference to the original purchase quotation. You will then post the goods receipt document and confirm the physical receipt into warehouse stock. After creating two partial invoices, you will post the payment to the supplier and finally check all involved G/L accounts in financial accounting. The following graphic shows the entire process.

Step 24: Display Balance List and Line Item List	69
MM Challenge.....	71

Step 1: Create Vendor

Task Create a new supplier.

Description Use the SAP Fiori launchpad to create a new supplier (Mid-West Supply).

Name (position) Joyce Hausman (Contract Manager)

Time 20 min

Suppliers are used in both financials and procurement. The master record of a vendor includes 3 categories – General Data, Finance, and Procurement. Vendors can be created centrally or with shared responsibilities. During central creation, all views are generated in one step and by one person. In the case of shared responsibility, finance and procurement create the views that are relevant for them. In this case study, the vendor is created centrally. As a result, the vendor master record contains all the information required to perform business transactions.

Vendor Master

To create a new supplier, go to the *Materials Management* space. In the *Contract Manager* section, you can use the *Manage Business Partner Master Data* app.

Start

The following screen appears:

The screenshot shows the SAP 'Manage Business Partner' Fiori app interface. At the top is a dark blue header with the SAP logo and the title 'Manage Business Partner'. Below the header, there's a 'Standard*' dropdown menu. The main area contains several input fields for search and filtering: 'Search', 'Editing Status' (set to 'All'), 'Role', 'Business Partner', 'Last Name/Name1', 'First Name/Name2', 'Street', 'City', and 'Country'. There are also 'Adapt Filters' and 'Go' buttons. Below these fields is a table titled 'Business Partners (0)' with columns for 'Business Partner', 'Street', 'City', 'Postal Code', 'Country', and 'Role'. The table is currently empty, and a message at the bottom says 'To start, set the relevant filters.'

On the *Manage Business Partner* screen, choose **Create** and **Organization**.

Organization

In the *Create Organization* popup window, leave the Business Partner field blank. The system will generate a unique number later. In the *BP Role* field, click and in the *Select: BP Role* window, select **FI Vendor (FLVN00)**.

FLVN00

For the *Organization Title* field, select **Company** and enter **Mid-West Supply ###** as the *Name 1*. Compare your entries with the following screenshot.

Finally, press  to get to the Fiori Launchpad Overview.

Step 4: Display Stock

Task Display the current stock.

Time 5 min

Description View the current stock for your chain lock and the demand for this product. The report should show that there is no provision for this and therefore no lock is currently available.

Name (position) Wilton Saban (Inventory Supervisor)

The stock is dynamic. As a result, it always changes when the affected material is used in a transaction.

Stock

To display the stock, go to the *Materials Management* space. In the *Inventory Supervisor* section, you can use the *Stock - Single Material* app.

Start

You will be directed to the following screen.

Stock - Single Material ▾

Material:

To find the material number of your chain lock, click in the *Material* field and then click . In the *Material* field, enter your number in the format **###*. Click to search. Double-click your material CHLK1###. Your stock should look like this:

*###

Material												
Stock by Plant/Storage Location												
Reporting Date		10/13/2021										
Plant	Storage Location	Unrestrict ed-Use Stock	Blocked Stock	Quality Inspectio n Stock	Restricted -Use Stock	Returns	Stock in Transit	Tied Empties Stock	Transfer Stock (Plant)	Transfer Stock (Storage Location)	Valuated GR Blocked Stock	Stock History
DC Miami MI00		0.000 EA	0.000 EA	0.000 EA	0.000 EA	0.000 EA	0.000 EA	0.000 EA	0.000 EA	0.000 EA	0.000 EA	
Trading Goods TG00		0.000 EA	0.000 EA	0.000 EA	0.000 EA	0.000 EA				0.000 EA		

In the DC Miami row, in the *Stock History* column, click the  icon. The system will now display the stock history of your material CHLK1### in DC Miami.

Stock History in Plant DC Miami

Note Since the material has just been created and no stocks have been posted yet, the stock history in all key figures is 0.

Close the window and click the Home button  to return to the SAP Fiori launchpad.

Step 5: Create Purchase Requisition

Task Create a purchase requisition.

Time 5 min

Description The sales management has informed the purchasing department that an advertising campaign is starting in 3 months to introduce the new chain lock. Create a demand (purchase requisition) for 200 of your locks so that you can choose the supplier that best meets your needs from any quotations.

Name (position) Wilton Saban (Inventory Supervisor)

To create a purchase requisition, please go to the *Materials Management* space. In the *Inventory Supervisor* section, you can use the *Create Purchase Requisition* app.

Start

You should now see the following screen.

Click [Create Own Item](#) .

Enter *Material* **CHLK1###** (## - replace with your number), press Enter. The Short Tex and Material Group will be added automatically.

Enter **32.00 USD** as the *Valuation Price*, **1** as the *Price Unit*, and **200** as the *Quantity Requested*. For the *Delivery Date*, you choose **today in 3 months**.

Note The requested quantity is displayed with three decimal places. Therefore, your 200 is displayed as 200.000.

Close the pop up and click **SAP** to go to the SAP Fiori launchpad.

Step 8: Create Quotation from Vendor

Task Maintain the quotation from a supplier.

Time 10 min

Description After we receiving responses to our purchase requisition from our suppliers, it is necessary to maintain the respective information in our procurement system in order to create comparability with which we can support the choice of supplier.

Name (position) Alberto Conti (Inventory Assistant)

Go to the *Materials Management* space. In the *Inventory Assistant* section, you can use the *Manage RFQs* app to create a request for quotation for your purchase requisition. If the app is missing in this section, please search it with the help of the search bar in the upper screen area.

Start

In the *Search* field enter **RFQ1###** and click **Go**.

RFQ1###

A screenshot of the SAP 'Manage RFQs' app interface. The top bar shows the SAP logo and 'Manage RFQs'. Below it, there's a search bar with 'RFQ1600' and a 'Go' button. The main area displays a table of 'Requests for Quotations (3)'. The table has columns for RFQ, RFQ Description, Company Code, Purchasing Organization, Purchasing Group, Target Value, and Quotation Deadline. One row is visible with RFQ 7000000002, description 'Request for Quote', company 'Global Bike Inc. (US00)', and a deadline of 06/01/2022. Below the table, there's a 'Create Quotation' button.

Click on the row with your Request for Quote. Go to the *Bidder* area. Select your bidder Mid-West Supply ### and click **Create Quotation** to create a quotation.

Page 10 of 10

Step 10: Create Purchase Order Referencing an RFQ

Task Create a purchase order with reference to a request for quotation.

Time 15 min

Description Create a purchase order that refers to the successful supplier's quote. The details are then imported into the new purchase order.

Name (position) Aura Maxwell (Purchasing Agent)

Go to the *Materials Management* space. There, you can use the *Manage RFQs* app to create a request for quotation for your purchase requisition. If the app is missing in this section, please search it with the help of the search bar in the upper screen area.

Start

In the *search field* enter **RFQ1###** and click **Go**.

RFQ1###

A screenshot of the SAP "Manage RFQs" web application. The header shows the SAP logo and "Manage RFQs" with a dropdown arrow. Below the header, there are several input fields for filtering: "RFQ1600" in a search bar, "Editing Status:" with a dropdown set to "All", "RFQ:" with a dropdown, "Company Code:" with a dropdown, "RFQ Type:" with a dropdown, "Status:" with a dropdown, "Purchasing Organization:" with a dropdown, "Purchasing Group:" with a dropdown, "Our Reference:" with a dropdown, "Created On:" with a dropdown, and "Quotation Deadline:" with a dropdown. There is a "Go" button and "Adapt Filters (1)" text. Below the filters, a table titled "Requests for Quotations (3)" is displayed. The table has columns: RFQ, RFQ Description, Company Code, Purchasing Organization, Purchasing Group, Target Value, and Quotation Dead-line. One row is visible with the following data: RFQ (Request for Quote 7000000002), RFQ Description (RFQ1600), Company Code (Global Bike Inc. (US00)), Purchasing Organization (Global Bike US (US00)), Purchasing Group (North America (N00)), Target Value (0.00 USD), and Quotation Dead-line (06/01/2022). Below the table, it shows "Status: Published", "Created On: 05/04/2022", and "Created By: Learn-600 Learn-600".

Open your RFQ and go to the *Process Flow* area.

You see your purchase requisition followed by the associated RFQ and the three supplier quotations. Two of the three offers have already been rejected, as indicated by the comment completed.

Click on the Supplier Quotation with the comment ✔ Awarded and then on [Manage Supplier Quotation](#).

To create a purchase order from the quotation click in the *Supplier Quotation* window on [Follow-On Document](#) and then on [Create Purchase Order](#).

In the *Purchase Order* go to the *Purchase Order Items* area you see one entry with your CHLK1### material.

We want to split the delivery in two partial deliveries. Change the *Order Quantity* from 200 to **100**. Select the entry and click [Copy](#).

200→ 100

In the *Purchase Order Item* screen go to the *Schedule Lines* area and change the *Delivery Date* to **one week later**.

Click  to go to the SAP Fiori launchpad.

☐

Step 12: Post Goods Receipt for Purchase Order

Task Create a goods receipt posting for your purchase order.

Time 5 min

Description You receive the goods that you ordered in the previous step from Mid-West Supply into your inventory. A goods receipt posting is created that refers to your purchase order. The stock is increased and a financial document is created that posts the value of the goods correctly.

Name (position) Tatiana Karsova (Goods Receipt Clerk)

To post the goods receipt, please go to the *Materials Management* space. In the *Goods Receipt Clerk* section, you can use the *Post Goods Receipt for Purchasing Document* app.

Start

Enter **your purchasing document number** in the *Purchasing Document* field. If you want to search for your purchasing document number, use the **F4 help**. In the search field, enter **CHLK1###** and then click **Go**.

Your purchase order number

CHLK1###

4500000003	Purchase O...	Standard PO	1003081	Mid-West S...	Lincoln			CHLK1777	Chain Lock ...

Then select the **first of your purchase orders** by double-clicking it. You can now see your subdivided purchase order.

First of your orders

Note If goods are delivered for a purchase order, document a goods receipt with reference to the purchase order. The system checks the purchase order and copies only the open purchase order items to the goods receipt transaction.

For goods receipt with reference to a purchase order, the system checks the following:

- Whether the correct material was delivered.
- Whether the correct quantity was delivered. (If there is no surplus or underdelivery)
- Whether perishable goods are within their minimum shelf life. (In this case, the shelf life expiration date check must be activated.)

For *Printing*, select **Individual slip**. If it is not filled automatically, select **TG00 (Trading Goods)** in the individual items for *storage location*.

☐ Material	Open Quantity	Distribution	Plant	Storage Location
☐ Chain Lock 777 CHLK1777	100.000 EA	+	DC Miami	Trading Goods

Since you have split your purchase order, you should see two lines with 100 pieces. In this step, we only process the first delivery. Therefore, click on the first row to check all entries.

Select the **Delivery Completed** checkbox.

X

Check that **Tradings Goods** is entered as the *storage location* and change the *stock type* to **Quality Inspection**.

Trading goods
Quality Inspection

SAP Goods Receipt Item

Chain Lock 777
CHLK1777

Progress of Goods Receipt for Purchasing Document 100

Quantity Storage Location / Stock Type Additional Information

Delivered (Unit of Entry):	100.000	EA	Delivery Completed: ☒
Open Quantity:	100.000	EA	
Ordered:	100.000	EA	

Storage Location / Stock Type

Plant: *	DC Miami	Stock Type:	Quality Inspection
Storage Location: *	Trading Goods	Special Stocks:	
		Supplier:	Mid-West Supply 777 (1003081)

Now click **Apply**.

Note Inventory Management recognizes various stock types that indicate the usability of the material:

- unrestricted-use stock
- Stock in quality inspection
- blocked stock

For goods receipts, you decide to which stock type a quantity is posted. The stock type is relevant for determining the available stock in material requirements planning (MRP) and for withdrawals in inventory management (see also Availability Check).

You can only post withdrawals for consumption from unrestricted-use stock. From quality inspection stock and blocked stock, you can only withdraw a sample, scrap a quantity, or post an inventory difference.

Leave the first line selected. Click *Post* to post the goods receipt of your material. You receive the following success message with your material document number.

Note When you post a goods receipt into one of the warehouses, the system generates a material document. This document contains information about the delivered material and the corresponding quantity. For stock items, the plant storage location is documented.

Close the message and click  to go to the SAP Fiori launchpad.

Step 13: Check Received Goods

Task Check the quality of the goods.

Time 5 min

Description You must ensure that the goods have been delivered in the required quality. The goods are released for consumption.

Name (position) Sandeep Die (Warehouse Supervisor)

Please go to the *Materials Management* space. In the *Warehouse Supervisor* section, you can use the *Stock (Single Material)* app to perform a quality inspection of the goods.

Start

Stock
Single Material

If it is not already selected, enter your material **CHLK1###**. A list is displayed. Click your material **CHLK1###**.

< SAP Stock - Single Material ▾

Material: CHLK1777 

CHLK1###

In the previous step, you posted the received goods for quality inspection. Here you can see the 100 units of quality inspection stock.

Material												
Stock by Plant/Storage Location												
			Reporting Date		10/15/2021							
Plant	Storage Location	Unrestricted-Use Stock	Blocked Stock	Quality Inspection Stock	Restricted-Use Stock	Returns	Stock in Transit	Tied Empties Stock	Transfer Stock (Plant)	Transfer Stock (Storage Location)	Valuated GR Blocked Stock	Stock History
DC Miami M100		0.000 EA	0.000 EA	100.000 EA	0.000 EA	0.000 EA	0.000 EA	0.000 EA	0.000 EA	0.000 EA	0.000 EA	
	Trading Goods TG00	0.000 EA	0.000 EA	100.000 EA	0.000 EA	0.000 EA				0.000 EA		

You can only remove goods from unrestricted-use stock for consumption. Therefore, you have to transfer post the goods.

Note In reality, you would check whether the correct goods and quantity were delivered before posting them to unrestricted-use stock.

Documents have been created (blocked for payment).

Supplier invoice: 5105600109/2022

Do you want to create a new supplier invoice?

Yes

No

Close the message with No to return to the SAP Fiori launchpad.

Step 16: Display Purchase Order History

Task Display the purchase order history.

Time 5 min

Description Review the status of your order of the chain locks. Due to the first transaction that was carried out for your purchase order number, the Purchase Order Processing tab page is now available in the purchase order.

Name (position) Wilton Saban (Inventory Supervisor)

To display the purchase order history, go to the *Materials Management* space. In the *Inventory Supervisor* section, you can use *My Purchasing Document Items (Professional)* app.

Start

The app provides you with an overview of all purchase requisitions, purchase orders, goods receipts, and supplier invoices. In the *Supplier* field, enter your vendor **Mid-West Supply ###**.

Mid-West Supply ###

The screenshot shows the SAP 'My Purchasing Document Items' app interface. At the top is a dark blue header with the SAP logo, the title 'My Purchasing Document Items', and search, help, and user icons. Below the header is a 'Standard*' dropdown menu. The main area contains several input fields: 'Document Number:', 'Supplier:' (with a dropdown showing 'Mid-West Supply 777'), 'Material Group:', 'Purchasing Group:', 'Plant:', 'Status:', and 'Purchase Order:'. Each field has a small icon to its right. At the bottom right, there is a link 'Adapt Filters (1)' and a blue 'Go' button.

Choose **Go** and then choose the tab page *Purchase Orders (2)*. You may need to scroll down to see your supplier and purchase order.

In the Purchase Order Items area, click  and select the *Delivered Quantity* and *Delivered Amount* columns in the *View Settings* dialog box.

View Settings

Columns	S

Click the *Process Flow* tab. In the process flow, you can see the transfer posting of the material from stock to quality inspection to unrestricted-use stock.

Click  to go to the SAP Fiori launchpad.

Step 18: Post Goods Receipt for Purchase Order

Task Post a Goods Receipt for a Purchase Order.

Time 5 min

Description You receive the missing goods that you ordered from Mid-West Supply into your warehouse. A goods receipt posting is created that refers to your purchase order. This ensures that you have received the ordered goods within the expected time and in the required quality. The stock is increased and a financial document is created that posts the value of the goods correctly.

Name (position) Tatiana Karsova (Goods Receipt Clerk)

To post the goods receipt, please go to the *Materials Management* space. In the *Goods Receipt Clerk* section, you can use *Post Goods Receipt for Purchasing Document* app.

Start

The *Post Goods Receipt for Purchasing Document* window appears.

Choose the **F4 help** in the *Purchasing Document* field.

Enter your number *### and click **Go**. Search for your material **CHLK1###**. You can see that you no longer see two purchase orders but only one open purchase order for your material.

*###

Select: Purchasing Document

US00	100...	510...	RE		10/18/2021	10/18/2021	-3,200.00		Clear >>

Since you want to pay both bills together, choose the button Clear >> in both lines. Note that both items have been cleared.

Clear

The open balance is now USD 0.00. **Balance: 0.00 USD**

Press **Post** to post your payments to Mid-West Supply. The system will assign a unique document number to your supplier payment.

 Success

Journal entry 1500000004 (2022, US00) successfully posted

Display Post Next Payment

Press Display and click  to go to the SAP Fiori launchpad. Confirm any error messages.

☐

Step 22: Display Vendor Balance

Task Display the balances of a vendor.

Description View and confirm the activities and related balances related to your Mid-West Supply vendor. You should see a debit posting and a credit posting that were generated by the two invoices and the output of a single payment to settle the payables to Mid-West Supply.

Name (position) Shuyuan Chen (Head of Accounting)

Time 5 min

To display the balances of a vendor, please go to the *Materials Management* space. In the *Head of Accounting* section, you can use the *Display Supplier Balances* app.

Start

Use the **F4 help** in the *Supplier* field to find the number of your supplier. In the Search Term field, enter your number **###** and press **Go**.

###

Scroll until you find your vendor **Mid-West Supply**. Select the entry.

Mid-West Supply

Items (43)

☐	Search Term	Cou...	Postal Code	City	Supplier Name	Supplier
☐	777	DE	01069	DRESDEN	SACHSEN STAHL AG	123777
☐	777	DE	80331	MÜNCHEN	RUN & FUN	124777

Click  to go to the SAP Fiori launchpad.

Step 23: Display Purchase Order History

Task Display the purchase order history.

Time 5 min

Description Review the status of your order of the chain locks. The Purchase Order History tab page has been updated as a result of further postings.

Name (position) Wilton Saban (Inventory Supervisor)

To display the purchase order history, go to the *Materials Management* space. In the *Inventory Supervisor* section, you can use *My Purchasing Document Items (Professional)* app.

Start

The app provides you with an overview of all purchase requisitions, purchase orders, goods receipts, and supplier invoices.

In the Supplier field, enter the number of your supplier Mid-West Supply ### and choose **Go**.

To display more information about the documents, you can click on the relevant row. This will take you to the financial document that was created when you created the supplier invoice.

Click  to go to the SAP Fiori launchpad.

Step 24: Display Balance List and Line Item List

Task Display the balance and line item list of the general ledger.

Time 5 min

Description Use G/L account numbers to display the activities and related balances for some accounts in your general ledger.

Name (position) Shuyuan Chen (Head of Accounting)

To display the balance and line item list, please go to the *Materials Management* space. In the *Head of Accounting* section, you can use the *Balance Sheet/Income Statement* app.

Start

In the *Display Financial Statement* screen, enter **US00** (Global Bike Inc.) for Company Code, **0L** for Ledger, and **G000** for Financial Statement Version. Make sure that the Balance Sheet Type is **Normal (Actual - Actual)** and End Period is **current period/year** and Comparison Period is **1/2016**. Compare your screen with the following screenshot.

US00
0L
G000
Normal (Actual – Actual)
Current Period/Year
1/2016

A screenshot of the SAP Fiori 'Balance Sheet/Income Statement' app interface. The header bar is dark blue with the SAP logo, a back arrow, and the title 'Balance Sheet/Income Statement'. Below the header, there's a 'Standard*' dropdown and a 'Hide Filters' link. The main area contains several input fields: 'Company Code' with 'US00 (Global Bike Inc.)', 'Ledger' with '0L (Leading Ledger)', 'Statement Version' with 'G000', 'Statement Type' with 'Normal (Actual - Actual)', 'End Period' with '10' and '2021', and 'Comparison End Period' with '1' and '2016'. There's also a 'Currency' field set to 'USD (Company Code Currency)'. At the bottom right, there's an 'Adapt Filters (7)' link and a blue 'Go' button.

Choose **Go**. In the view, you can see all items of the accounts of Global Bike in the United States.

 MM Challenge

Learning objective Understand and execute a Materials Management process.

Time 80min

Motivation After you have successfully completed the Materials Management case study, you should be able to solve the following task independently.

Scenario A new chain lock, *Chain Lock Security Pro ###* (DE: Kettenschloss Security Pro ###), is available on the market and we would like to include it in our inventory. The new chain lock with material number CHSP1### consists of a higher quality steel than the previous chain lock (CHLK1###), but the old one can still be used as a template because it has the same properties. The new material is intended for plant MI00, sales organization UE00, and distribution channel WH. With modern production techniques, the new material CHSP1### is also offered more cheaply by the suppliers. Global Bike Inc. passes the savings on to its customers. Maintain the chain lock in Sales and Distribution with the price condition 50.00 USD per chain lock. Request offers for 300 chain locks of security pro with a valuation price of 25.50 USD. Based on your request of 300 pieces, *Boomtown Tire & Wheel* is offering 26.00 USD per piece and *Space Bike Composites* of 25.50 USD per piece. Enter both quotations and accept the best quotation and order the requested 300 chain locks. Process the inbound delivery and enter the incoming invoice. You then pay for the delivery.

Note Since this task is based on the Materials Management case study, you can use this as a guide. However, we recommend that you carry out this continuing task without assistance in order to test your acquired knowledge.
